

TruLaser 5040 fiber technical data

Workable sheet size:	
Length, mm	4000 mm
Width, mm	2000 mm
Maximum workable sheet size mass	1700 kg
Laser power	6000 W
Maximum steel cutting thickness	25 mm
Maximum stainless steel cutting thickness	25 mm
Maximum aluminum cutting thickness	25 mm
Maximum copper cutting thickness	10 mm
Maximum brass cutting thickness	10 mm
Maximum titanium cutting thickness	6 mm
